PREFACE TO THE SECOND READER.

THE SECOND READER of the Educational Music Course comprehensively and systematically develops the Diatonic relations of the tones of the Major Scale in the nine common keys.

In each key these relations are first studied through conjunct rhythmical progressions; afterwards through the principal harmonics of the key, suggesting the harmonic basis upon which melody rests.

The earlier exercises and songs are purposely quite simple, for the benefit of such pupils as have not had previous training in music.

In the First Reader the commonest accidental — Sharp-four — was employed in its Diatonic character, but in this Reader its Chromatic nature is developed as well.

The most important flatted degree of the Scale — Flat-seven — is also treated in the same complete and systematic manner.

The exhaustive treatment of these two changed-notes prepares the pupil for the study of the Chromatic tones thoroughly and progressively presented in the Third Reader.

Deviations from a primary or given key occasionally occur in actual or implied modulations to the nearest related Major or Minor key, and there are a few exercises and songs exclusively in the Minor mode. Such deviations need not be specially alluded to, however, as they are

iv PREFACE.

introduced merely for practice, extended treatment of them being reserved for a future Reader.

The comparative diagrams at the beginning of each key will prove useful in showing its origin and explaining its signature.

The illustrations in small music-type opposite these diagrams are intended to teach a direct method of establishing the tonic or key-note of the new key from a standard pitch, provided the tone indicated, \overline{c} , be given in every instance from a pitch-pipe, tuning-fork, or other reliable instrument.

In this Reader the study of Time is restricted to ordinary forms of Measure and Rhythm, in the belief that when these are fully comprehended, all succeeding varieties will be easily overcome.

The divided beat of two equal sounds and derived metrical combinations are reviewed as a preparation for the more difficult rhythmical effects gradually and logically following.

The graded Two-part Exercises and Songs in free counterpoint employ only such technicalities as have been previously presented in the Unison studies.

SIXTEENTH REST.

Scale, — eight sounds ascending or descending in a regular succession.

The diagram represents the common, or major scale, consisting of five tones and two semitones, in the following order:—

I to 2—a tone, 2 to 3—a tone, 3 to 4—a semitone, 4 to 5—a tone, 5 to 6—a tone, 6 to 7—a tone, 7 to 8—a semitone.

THE SHARP, - raises the pitch of a note a semitone.

THE FLAT, -lowers the pitch of a note a semitone.

THE NATURAL,—removes the effect of a # or b: i. e., it lowers a sharped note a semitone and raises a flatted note a semitone.

THE PAUSE,—a dot in a semicircle. It means that the note or rest over or under which it is placed is to be held longer than usual. Placed over a double-bar, it marks the end of the composition.

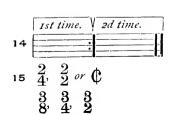

THE REPEAT,—dots immediately before or after a bar. It indicates that music before or after the dots should be repeated.

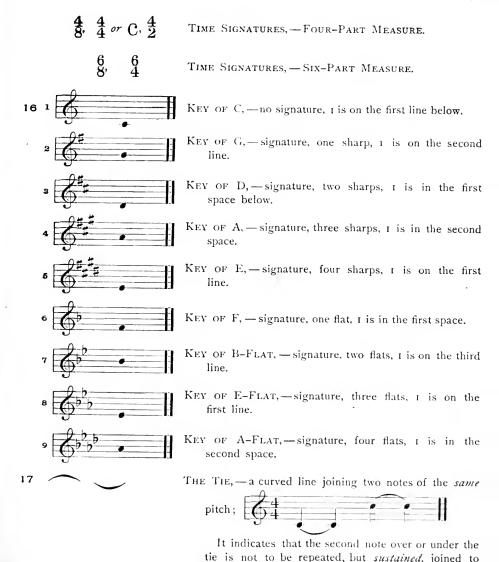

IST AND 2D ENDINGS,—signs indicating that, in the repetition, the music marked 2d time must be substituted for that under the sign 1st time.

TIME SIGNATURES,-TWO-PART MEASURE.

TIME SIGNATURES,—THREE-PART MEASURE.

THE DOT, — placed after a note lengthens it one half; thus, the dot after a half-note takes the place of a quarter-note tied, p. —

اب م

The dot after a quarter-note takes the place of an eighth-note tied, $e^{\bullet} = e^{\bullet}$

STACCATO, — A dot placed over or under a note means that it is to be short, crisp, disconnected.

THE SLUR,—a curved line joining two or more notes of different pitch;

It indicates that the notes so joined are to be sung to one syllable.

BOUND EIGHTH OR SIXTEENTH NOTES should be sung to one syllable.

21 D.C.

DA CAPO, - from the beginning.
